LOCATING REMOTE COMPONENTS

STEP 4

You will need to mount the GPS and Optional Satellite Radio Antennas on the exterior of the vehicle. And mount the iPod Interface Connector in the vehicle. The following steps will help guide you through this process.

Use Caution around SRS Components

It is the **installer's responsibility** to ensure that the safety equipment in the vehicle is **NOT** adversely affected by installation of this system. Ensure that the routing of the harnesses do NOT obstruct airbags, SRS or other safety devices.

Mount the GPS and Sat Radio antenna on the EXTERIOR of the Vehicle

Route the GPS harness away from other power harnesses in the vehicle.

This will help to ensure optimum performance of the GPS system.

Install the Optional iPod Video interface connector in a location accessible to the end-user

iPod Video cable is connected via rear mounted USB connection.

Cable P/N: PP1013

INSTALL THE CARSHOW NAVIGATION SYSTEM

STEP 5

You will need to prepare the CarShow Navigation System for installation in the vehicle.

Connect the Power and GPS Harnesses

The GPS Harness must be properly seated into connector. Also be sure steering wheel control connector is securely connected.

Failure to follow this step may result in poor GPS signal and steering wheel controls being inop.
